

## Directory of World Chemical Producers

### Purpose

- To find worldwide producers of chemical raw materials

### Scope

- More than 220,000 product titles, including almost 114,000 synonyms inserted as cross references
- Over 15,000 producers with full contact details including over 11,000 email addresses and almost 10,000 websites
- 101 countries
- Over 350,000 production points
- More than 89,000 CAS numbers
- Includes over 70,000 Structures (coming soon)

### Coverage

- Basic organic and inorganic chemicals
- Bulk pharmaceuticals
- Intermediates
- Fine chemicals
- Specialty chemicals
- Agricultural chemicals (including technical pesticides)
- Flavor and fragrance chemicals
- Dyes and dye intermediates
- Food ingredient chemicals
- Commonly used laboratory chemicals
- Research chemicals with future commercial potential
- Catalysts (by general application categories)
- Resins (by general application categories)

### Search by

- Chemical name
- CAS number (Chemical Abstracts Registry number)
- Functional Group
- Manufacturer
- Country

### Formats Available

- Book, published annually.
- CD-Rom, Single User, updated twice a year.
- Internet Access, Individual User accounts, updated daily.
- Single Searches available.
